

Professor Latency Comparison

Shared database path benchmark comparison
Generated: 2026-05-02

Average response time in milliseconds across three checkpoints: before indexing, after professor-specific indexing, and after Redis-backed professor caching.

Endpoint	Before Indexing	After Indexing	After Caching
Professor dashboard	3136.51	2198.93	453.82
Professor classes	173.92	216.35	161.79
Professor class students	328.49	407.37	308.65
Professor class grades	329.54	371.33	64.86
Professor class attendance	352.69	374.35	65.49
Professor class announcements	329.59	738.14	332.61
Professor class assignments	553.89	526.52	522.14
Professor assignment submissions	695.06	961.12	244.42
